PROFESSIONAL SUMMARY

QA Automation Engineer at Cognizant delivering **end-to-end Playwright + Pytest automation** for enterprise client Electrolux. **Anthropic Claude Certified Architect** with proven ability to design and ship production **AI / GenAI applications** using LLMs, RAG, multi-agent systems, and the Model Context Protocol (MCP) — bridging deep QA expertise with AI engineering.

TECHNICAL SKILLS

AI / GenAI: LLMs (OpenAI, Anthropic Claude, Google GenAI, Groq, Ollama), LangChain, LlamaIndex, RAG, Vector DBs (ChromaDB, Pinecone), Prompt Engineering (Zero-shot, Few-shot), Streamlit, FastAPI

AI Agents & Protocols: Pydantic AI, CrewAI, Multi-Agent Systems, Model Context Protocol (MCP), n8n, Agentic Workflows

QA Automation: Playwright, Pytest, Selenium WebDriver, TestNG, Cucumber, Gherkin, Postman, REST API Testing, Maven, Page Object Model, BrowserStack

Programming: Python, Java, SQL, JavaScript, HTML, CSS

Cloud & DevOps: AWS EC2 (LLM Deployment), GitHub Actions (CI/CD), Git, GitHub, FastAPI, VS Code, Eclipse

Tools & Methodologies: JIRA, Agile, Scrum, SDLC, STLC, Manual Testing, Test Case Design, BDD

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer — Cognizant Technology Solutions

Nov 2025 – Present

- Automating E2E test suites for **Electrolux** using **Playwright + Pytest**; cross-browser validation via **BrowserStack**.
- Authored 150+ test cases and test data sets for B2B web apps; managed defects and sprint tasks in **JIRA**.
- Performed manual, functional, regression, and exploratory testing across Agile sprints; triaged defects with developers.
- Integrated test runs into **GitHub Actions** CI pipelines; contributed to sprint planning, demos, and retrospectives.
- Built a **Claude-powered QA Test Assistant** that auto-generates test cases and automation code from acceptance criteria, reducing authoring time.

QA Automation Intern (with AI) — Cognizant Technology Solutions

May 2025 – Aug 2025

- Trained on **Selenium, TestNG, Cucumber BDD, Postman, REST API testing, Maven**; additional track on GenAI in QA workflows.
- Built an **e-commerce automation suite** using Selenium + TestNG + Cucumber with data-driven tests, reporting, and Git workflows.

Frontend Developer Intern — IBM

Jun 2024 – Aug 2024

- Built responsive UI components using HTML, CSS, JavaScript, Bootstrap, and SQL; worked on accessibility and cross-browser fixes.
- Alongside, delivered **freelance websites** for individual clients — managing requirements, design, development, and deployment end-to-end.

FEATURED PROJECTS

AI-Powered QA Test Assistant | *Streamlit, Anthropic Claude API, Python, Vision* • [rebinchatbot.streamlit.app](#)

- Generates Selenium Java, Cucumber BDD, and Excel/CSV test cases from acceptance criteria or UI screenshots; supports vision input and model switching across Claude Haiku, Sonnet, and Opus.

Multi-Agent AI System for Stock Analysis & Trading | *CrewAI, Python, LLMs*

- Multi-agent system using **CrewAI** where researcher, analyst, and advisor agents collaborate to evaluate market trends and generate trading recommendations.

Personal RAG Chatbot — "Ask About Rebin" | *LangChain, ChromaDB, Streamlit, OpenAI* • [rebinragbot.streamlit.app](#)

- RAG-based conversational portfolio; secured admin authentication enables real-time document ingestion to expand the knowledge base.

Weather MCP Server + Pydantic AI Agent | *MCP, Pydantic AI, Groq Llama-3.3, FastAPI*

- Built a **Model Context Protocol (MCP) server** connecting Claude Desktop to OpenWeatherMap API, plus a **Pydantic AI agent** that queries it via natural language using Groq-hosted Llama 3.3.

CERTIFICATIONS

- Anthropic Claude Certified Architect** (2026)
- Data Structures & Algorithms** — NPTEL
- Python Programming — Coursera | SQL — Coursera
